message

"We will be there on July 15th, and are trying to make an appearance to support the Crossman's on their Occupy event on the 30th. Yes, our claim is on the SF of the Clearwater. You can join us at americanminingrights.com Let us know if you have any additional questions."

American Mining Rights Association

May 8

We are very excited to announce that AMRA has just acquired nearly a mile long claim on the Clearwater River in northern Idaho. The person who we picked up the claim from dredged a tiny portion of it with a 4" dredge and got 28 ounces.

It is an exceptional claim, great access (right off the pavement) and will be posted on our site very soon!

This is a picture of the claim.

•

[American Mining Rights Association](#) **The EPA is unconstitutionally trying to impose a defacto prohibition on dredging in Idaho, but the miners are fighting back. The moves by this administration are being seen all across the country. It's not based on science, facts or anything other than just their agenda. We will be dredging in Idaho on July 15th along with about 200 of our dredging miner friends.**

- [Steve Gregor](#) Looks awesome. Great job, guys! Keep that AMRA inventory growing. Pretty soon I envision AMRA "clubs" ... groups who meet and mine, and ALL have AMRA memberships. It's going to happen. And with more and more claims, traveling becomes fun, too. Congratulations on a great visino and delivering the goods!
